

## Research Request Form

The ASRP is committed to conducting research that is relevant to you. Hog producers from New Brunswick, Nova Scotia and Prince Edward Island can make recommendations for research projects to the Atlantic Swine Research Partnership. This document will be date stamped when we receive it and will be presented to the ASRP Board of Directors at the next available meeting where a decision will be made regarding your proposal. Please be advised that a staff person from the ASRP will contact you regarding the status of your proposal. You may also be contacted to provide further information.

Please submit your request to your local Board office or directly to ASRP:

Janice Murphy, ASRP Communications and Technical Support
